

Vegas

Massimiliano Raggi

Vegas è la sorella maggiore di Eclisse, riprendendone le caratteristiche, ma sviluppandosi in grandezza ed in lunghezza. Sospensione ad anelli, realizzati in legno con finitura bronzo (in due tonalità), attraverso le nuove tecniche di verniciatura con polveri di metallo: l'effetto è quello del bronzo spazzolato su metallo. Contardi propone la luce principale, dimmerabile, inserita nel rosone e centrata sugli anelli aperti. Gli anelli chiusi, in alternanza, invece emettono una luce più soft e delicata, diffusa dal materiale plastico speciale con venature, che ricorda il marmo. Le due sorgenti sono comandabili separatamente e la corrente è condotta dai cavi coassiali di tenuta, senza alcun cavo di alimentazione, garantendo il massimo risultato di pulizia formale. Adesso disponibile anche nella versione bianco opaco.

Through new innovative and unique techniques was born Vegas. A suspension lamp with six multi-sized rings made of wood, Vegas stands out by using a new method of painting wood with metal powders; creating the illusion of a satin bronze & light satin bronze metal finish, while offering the benefit of a lighter weight, more sustainable fixture. The small rings emit a soft light diffused by a special acrylic material with characteristic veining similar to that of marble. The main light comes from three dimmable COB LED built in to the canopy. The two light sources can be controlled separately and the current is led through coaxial suspension cables without any power cable, guaranteeing the maximum neatness of form. Now also available in a total white finish.
