

Air

Adam Tihany

SO

La nuova lampada a sospensione AIR, ideata da Adam Tihany, combina l'amore per il design con una filosofia ecologica.

Caratterizzato da intricati tagli laser, una luce a doppia emissione e un bagliore caldo e invitante, questa luce è realizzata in GREEN CAST®. Si tratta di un materiale acrilico riciclato e riciclabile al 100%, prodotto nel massimo rispetto delle risorse primarie, comportando una quantità notevolmente ridotta di materie prime e il riutilizzo di ciò che è considerato rifiuto.

Con AIR, Contardi si impegna a diventare un'azienda ancora più verde in futuro, con la promessa di ridurre drasticamente lo spreco di materiali e i danni alla Terra. Vogliamo che le nostre lampade abbiano un grande impatto nel mondo del design e il minor impatto ambientale possibile.

The new AIR suspension light, conceived by Adam Tihany, combines a love of design with a solid ecological ethos. Featuring intricate laser cuts, a double emission light and a warm, inviting glow, you wouldn't guess that this light is made of GREEN CAST®. This is a 100% recycled and recyclable acrylic material produced with the utmost respect for primary resources, involving a significantly reduced amount of raw materials, and the re-use of what is considered waste.

With AIR, Contardi makes a pledge to become an even greener company in the future, with a promise to drastically cut the waste of materials and damage to the Earth. We want our lamps to have a great impact on the world of design, and the smallest possible environmental footprint.
